#### Minimum Qualifications:

- Bachelor's degree in agriculture, public administration, business administration, natural resources, political science, or a related field
- A minimum of five years of experience in executive leadership, senior management, or public administration, with demonstrated experience overseeing complex programs, regulatory functions, or large organizations.
- Experience working with legislative entities, executive leadership, or governmental oversight entities is required.

#### Knowledge and Skills:

- Comprehensive knowledge of public administration principles, including executive leadership, organizational management, budgeting, and personnel administration.
- Strong understanding of agricultural policy, natural resources management, regulatory enforcement, food systems, and the role of agriculture in economic development.
- Ability to lead multi-division organizations and manage competing priorities in a politically and operationally sensitive environment.
- Ability to analyze legislation, regulations, and policy proposals and assess impacts across multiple program areas.
- Exceptional communication skills, including the ability to brief executive leadership, legislators, and external stakeholders clearly and effectively.

- Demonstrated skill in strategic planning, problem-solving, negotiation, and consensus-building across diverse internal and external partners.

**Preferred Qualifications:**

- Demonstrated experience overseeing or administering large-scale food and nutrition programs, including programs funded or regulated by the U.S. Department of Agriculture, such as child nutrition, commodity distribution, farm to school, or emergency food assistance initiatives.
- Experience developing and implementing initiatives that integrate locally produced agricultural commodities into institutional food systems, including school meal programs and other public nutrition settings.
- Experience coordinating food and nutrition programs with agricultural promotion, research and market-development efforts, including collaboration with research and promotion boards, commodity organizations, and agriculture branding programs.
- Knowledge of state and federal laws, regulations, and policy frameworks governing food and nutrition programs, including procurement, eligibility, program integrity, and audit requirements.
